Note: Our larger patterns have completely illustrated cutting layouts.

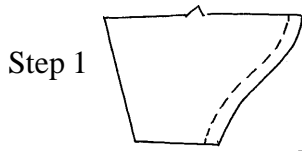

GENERAL SEWING INSTRUCTIONS

use 1/4" seam for all seams.

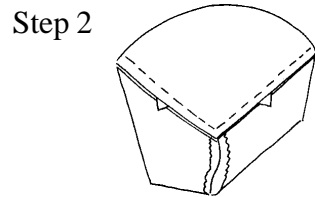

4003 Fox Finger Puppet 4003

USE 1/4" Seams

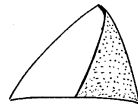

1. With right sides together sew center front seam of lower jaw.

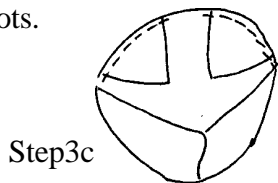

2. With right sides together sew notched edge of lower jaw to notched edges of upper head.

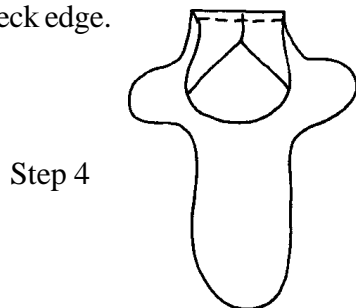

3a With right sides together sew one white ear to one rust ear. Repeat with other ear.
3b Turn ears right side out and fold along fold line, matching white to white.

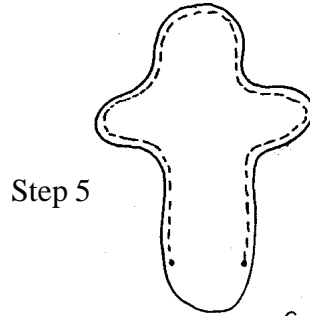

3c With white sides matching front of face, Baste ears to curved edge of upper head between dots.

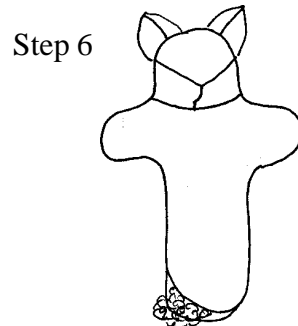

4. With right sides together sew front head to front of body along neck edge.

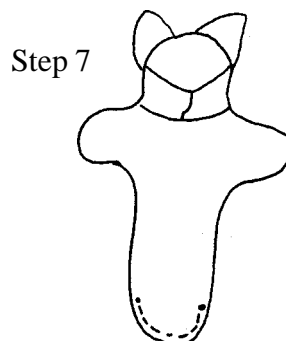

5. With right sides together stitch front to back around outside edges of body and arms leaving open between dots at bottom edge for stuffing.

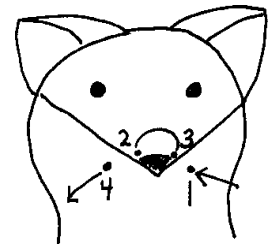

6. Turn right side out. Stuff head and arms firmly till body is half full. stitch bottom opening closed.

7. Push unstuffed lower body to inside of body and wiggle fingers to center it in the middle of the stuffing.

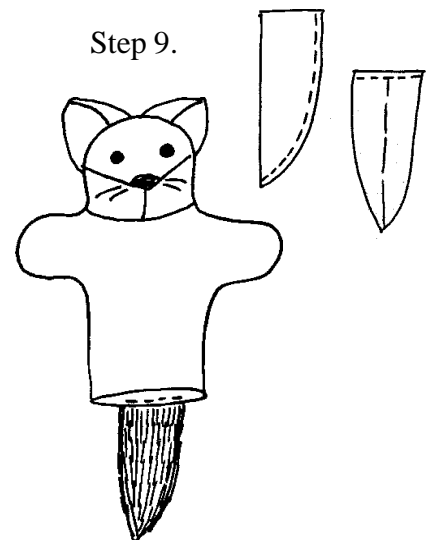

8. Embroider triangle nose, circle eyes and 2 or 3 whiskers on each side of nose. To make whiskers pull thread behind nose and leave about 1/2" hanging out at side of nose then stitch back over nose and out through the other side of nose then leave about 1/2" of string hanging and snip thread. Repeat this to make one or two more whiskers on each side of head.

Whiskers:

Insert needle at 1, go out at 2 back in at 3 and out at 4.

9. Cut 1 fox tail of rust colored fake fur. With wrong sides together sew together along curved edge. Fluff fur edge so seam doesn't show. Fold tail so center of folded edge matches sewn seam. Stitch to center back lower edge of puppet.
